TRAVELER'S GUIDE. Miscellaneous.

BY OLIVE A. WADSWORTH.

What gloom resist he glory!

Down through our leafy canopy

Dart myriad golden missiles.

And e'or the willow whistles,

Such balus, no words can utter! and all the birds that e'er were seen.

hey pertly perch, with heads nwry,

Have nathered here to fatters

We're micking willow whiatles

How dare you, comrade, trifle so.

In these grand farest temples,

And set me bad examples!

such songs of praire here arise

Instead of making whistics,

As ne'er were found in Missals,

They say the world's a vale of tears,

And man is born to trouble-

Beside the brooklet's bubble:

The fairest project fizzles --

In making willow whistles.

Though one's a prettier color,

Titish has - no need to frown,

I've said not which is duffer;

When we made willow whistles,

he word cound fully in my cars

riends clunge, I hear, and hopes grov

The brook shows back two leads of brown

They, II be the same, both yours and mine,

And then, we'll heigh at "Auld Lang Syne

A LITTLE PLOT.

lace, a majolica vaso, overrun with sim-

ilax; a dark woman's face, with a red

rose in the bair. This is what Olive

Fay saw as she stood awaiting entrance

A negro servant answered her sum

room, all in purple, chony and gold, --

v the splendid place

She sank wearily into one of the velvet

bairs, though awed and made nervous

While she waited, a silvery bell some-

hour of four. The short Winter after-

A step on the stair-a woman's tal

THE YARMER. CORN IN HILLS AND DRILLS. At the Michigan Agricultural College, in 1908, two piots of land were set in a pint of warm sails. To clean silapart, substantially equal in character ver, mix two teaspoonsful of ammonia of soil, each measuring forty-eight rods in a quart of hot suds. Put in your sli-in width. The ground was plowed May verware and wash, using an old nail and manure was spread evenly and brush or teeth brush for the purpose. worked by a cultivator and harrow. For cleaning hair brushes, etc., simply Yellow Dent corn was planted May 21. stake the brushes up and down in a rows four feet apart; one of the plots | mixture of a teaspoonful of ammonia being planted in hills, and the other in to one pint of het water; when they drills. The plots were cultivated and are cleaned, riuse them in cold water, Locd June 15, and again July 7; the and stand them in a hot place to dry. plants being thinned so as to leave the some number of stalks on each plot, including the equal distribution of plants throughout the subdivision of quick work of it. It you wish your the plots. As near as possible each of house plants to dourish put a few drops the plots. As near as possible each of the spirits in overy pint of water and cultivation. The stalks were cut used in watering. A tenspoonful will add much to the refreshing effects of the juth. Nothing is better than analysis of the path. Nothing is better than analysis. mer; three weeks arreward the was lawked and weighed. The stalks month water for cleansing the late. In we've then again carefully stacked, and every case rinse off the anamonia with dended and weightd, in good condition, clear water. To which we would only October 12. The corn on the portion add that, for removing greaso spots, a of the bills was beiter in quality maxture of equal puris of monomia and it is on that planted in drills. But the alcohol is better than manuoula alone: dilided portion produced seventy-four and for taking out the red stains pre-and one-sixth bushels of shelled corn, and three tons of stalks to the acre, black cloths, there is nothing better as first sixty-five and one-half bushels. Usan namonla.—Providence dournal. of shelled corn, and two and two-thirds toos of stall's per acre produced by the partion in hills, -- Recol. World,

HEN MANURE.-Vindex, Long Is land, has ten barrels of hen manure, and now the question occurs, "What will I do with it?" Poor man! we are elements necessary for the construction sorry for you; head up the parries (1907) and pay the freight to our place and it ways a proper food in all circumstances won't trouble you any more. When it of health.

"Tea derives its beneficial qualities and the derives its beneficial qualities." linee times its bulk of the dryest earth stong, it will not do to put it in direct | perature," that with the seed. If he chooses to Yet it must be generally conceded take the trouble, Vindex can do this that a free coffee-drinker will almost for him = Agriculturist.
